Title:  
(FR) Méthode de manipulation d'images par commande vocale  
(EN) Voice controlled image manipulation

Abstract:  
(DE) Manipulation von Bildschirmdarstellungen durch Sprachbefehle  
(EN) An apparatus for manipulating the colour of an image is provided, having a microphone 7 for providing electrical speech signals representative of a user command, a speech recognition unit 271 for recognising the input speech signal, a command interpreter 273 for interpreting the recognised speech, a graphics package 275 responsive to the command interpreter and a display 277 for displaying the current image being edited. The apparatus

accepts other inputs 279, for example, from a pointing device.
